## ZTAG SOCIAL ACTIVE GAMES

We Deliver Excitement!®

### Active Social Games for Gen Z

Using wearable trackers, games are social, physically active, and safe.

The system acts as referee to eliminate cheating and maximize fun.

Games are fully staffed by our professional event coordinators.

With three modes, Play is dynamic, and fun to watch.

### Fun for All Ages

**K- 12**

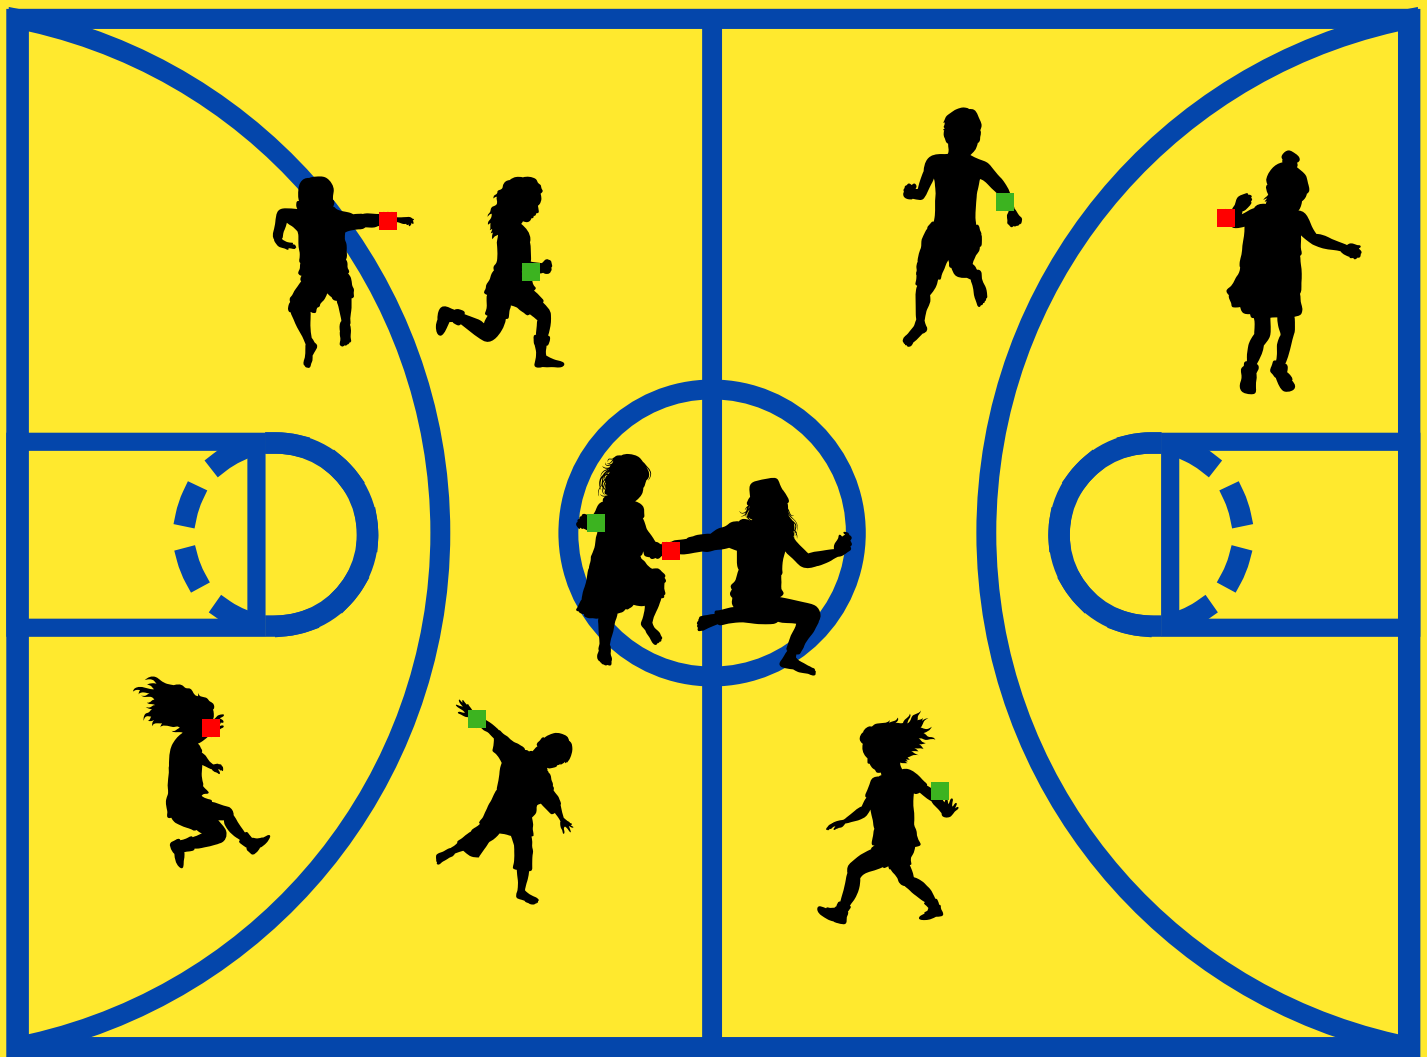

Capacity: up to 100 players per hour  
Up to 24 players at a time

### Indoor / Outdoor fun

Play grounds, fields, or courts.  
Multi-purpose rooms or gyms!

### Multiple Games

Survival Tag  
Pattern Match  
Freeze Frame

## How it Works

Each player wears a tracker on their wrist. The central game controller programs tracker for game mode and reports scores after every round. Trackers detect player movement. They provide feedback in three ways, through the screen, via sound, and with vibration. Moreover, the trackers detect each other and can interact depending on game mode.

## Requirements

30 foot by 30 foot space with sufficient ventilation for 24 active players.

System is battery operated (lasts 3 hours per charge). For longer periods power is required to recharge units.

System works night, or day, inside or outdoors.

## Game Modes

**Survival Tag.** Be the last player standing.

**Pattern Match** - Quickly find the other player who has your color, shape, or both for extra points. Most points wins!

**Freeze Frame** - Manic motion!
